

RSTP and CMAQ Project Detail

as of 08/31/99

District(s): All

This report summarizes MPO/RTPA activity according to the following sort order:

Caltrans District
MPO/RTPA
Transaction Type (Apportionment, transfer, loan, or obligation)
Project number

Regional Surface Transportation Program (RSTP) funds are made up of Surface Transportation Program (STP), Donor State Bonus (DSB), and Minimum Allocation (MA) funds. STP, DSB, and Congestion Mitigation and Air Quality (CMAQ) funds use OA. MA funds do not use OA.

Use this report to summarize activity for a given MPO. Do not use this report to program projects because it does not provide apportionment code level detail balances. Use the balance summary reports to get this information.

This report groups all apportionment funds together to show all RSTP and CMAQ obligations and MPO/RTPA balances. If a MPO/RTPA has a balance, the reader should not assume that all the funds can be used on one project.

An example would be that a MPO could have fund balances in two urbanized areas. FHWA will not allow funds from two urbanized areas to be obligated on one project because these funds cannot cross urbanized area boundaries.

For simplicity, this report has combined all apportionments together. Please use with caution.

The following table shows what OA ratios were used to calculate OA balances. Please note that there is a difference between OA and Apportionment. OA is the authority to obligate Apportionment.

Federal Fiscal Year	Local OA/Local Apportionment Ratio
98/99	0.873000

Report Column Definitions:

STP/DSB/CMAQ subject to OA: Represents apportionment transactions that use OA.

OA Amount: Represents OA transactions.

MA not subject to OA: Represents MA transactions that do not use OA.

Additional Notes:

- 1) Exchange transfers are performed on a prorated basis with OA.
- 2) Obligations involving Minimum Allocation do not show the date of prior year FFY obligations. This is due to a limitation in the way data is collected for this ISTEA appropriation.
